

GDWH | Gas damper valve wafer high temperature

Application	For On/Off service
Range	DN 50 - 1200
Connection	Wafer: EN1092-1 PN 6, EN1092-1 PN10, ASME B 16.9 Cl. 150 with center holes
Inspection & testing	FCI 70-2 Class I , II & III available (0.1% - KV90) EN12266
Temperature range	-40°C / + 1000°C
Material	Carbon Steel, AISI304, AISI316, AISI253MA, AISI321, AISI 309 , ...
Design rules	EN12516-1, EN12516-2, PED 2014/68/EU, ANSI 16.34
Face 2 face	Manufacturer standard or according to customer specification
Operated	Handlever, gearbox, pneumatic actuator, electrical actuator
