

GDFM-TC | Gas damper valve flanged medium temperature tight control

Application	For control (modulating) service
Range	DN 1800 – 4000
Connection	Flanged, butt-weld, Flange drilling in accordance with: EN1092-1, DIN86044, DIN28031, JIS(7805-5K-10K), ASME B 16.5 Cl. 150 or 300, ASME 16.47 Serie A, B or custom build
Inspection & testing	FCI 70-2 Class III (0.1% - KV90) EN12266, Option: 100% sealing by means of sealing air (+fan)
Temperature range	-40°C / + 750°C
Material	Carbon Steel, AISI304, AISI316, AISI253MA, AISI321, AISI309, Alloy 800HT/625,
Design rules	EN12516-1, EN12516-2, ANSI 16.34, EN1090
Face 2 face	Manufacturer standard or according to customer specification
Operated	Handlever, gearbox, pneumatic actuator, electrical actuator
