

## GDFN-IV | Damper valve flanged normal temperature inlet vane

<b>Application</b>	For control (modulating) service
<b>Range</b>	DN 250 – 2000
<b>Connection</b>	Flanged, butt-weld, Flange drilling in accordance with: EN1092-1, DIN86044, DIN28031, ASME B 16.5 Cl. 150 or 300, ASME 16.47 Serie A, B or custom build
<b>Inspection &amp; testing</b>	FCI 70-2 Class I & II available (0.5% KV90) EN12266
<b>Temperature range</b>	-40°C / + 400°C
<b>Material</b>	Carbon Steel, AISI304, AISI316, AISI253MA, AISI321, AISI309, .....
<b>Design rules</b>	EN12516-1, EN12516-2, ANSI 16.34, EN1090
<b>Face 2 face</b>	Manufacturer standard or according to customer specification
<b>Operated</b>	Handlever, gearbox, pneumatic actuator, electrical actuator
